

## EBSPAYSUITE FEATURE LIST

### EBSTIME

The EBS time and labor solution helps your organization to make better decisions based on timely, accurate labor data. Whether your organization is in a single location or diversified among multiple times zones or even countries, tracking time and labor is more demanding than ever before. Use EBSTime to automate the wage hours' calculations and reporting of hours worked, paid and unpaid time based on your organizational policies, enforce leave and attendance policies more efficiently and consistently, and track PTO, LOA and FMLA, etc.
